

## About Ohio State University Extension...

Extension is the world's largest non-formal educational system, created in 1914. For 100 years, we have worked to meet the needs of our neighbors and our communities through our statewide and national Extension network. You can find us in every county across the state of Ohio bringing the best in researched based education to you.

A proud partnership of federal, state and local funding supports programming efforts. Join us to gratefully acknowledge the continued help and support of our local County Commissioners Tom Bernabei, Janet Weir-Creighton, and Richard Regula.
